

Subscriptions are done by individuals signing up on their own through a third-party subscription service (Wordpress/Jetpack). Website owners have no access to the information, nor can they change a subscription.

- When a person signs up, he/she will receive a confirmation email.
- Once they click the “Confirm Follow” button, they’ll receive a notification of every future post by email.
- Each email will have a link at the bottom to Manage Subscriptions, so they can unsubscribe at any time if they choose.
- Also, if they ignore the confirmation email, they won’t receive anything from your site.
